VORTEX

It's easy to see why the VORTEX is the 2006 players choice!

The marriage of design and technology take the touch screen game experience to a new level. The reliability of Flash Technology guarantees that when the VORTEX arrives at your location, it's there to stay. With JVL's industry leading game software installed, the playfield just begs to be touched.

Here's to a great partnership of design and technology.
